

Flow Medium 105 HT 125 cm

white/clear

Flow Medium 105 HT 125 cm is a specially knitted net, which is used for the resin distribution in resin infusion and in similar processes. Beyond that it can be used as flexible/high-flexible re-usable breather for applications with vacuum bags as well as for reinforcement.

For application with resin infusion, form pressing, VAP and VARTM procedures as well as CRIMP.

OVERVIEW

- excellent resin flow
- causes no impressions on the surface
- usable with all resins

PHYSICAL SPECIFICATIONS	
Composition	100% PET polyester mono filament yarn
Colour	white/clear
Maximum operation temperature	up to 200 °C
Net structure	knitted
Net weight	105 g/m ² (± 8 %)
Thickness	0.7 mm

FORM OF DELIVERY

Description	PU	Article number
Flow Medium 105 HT 125 cm	100 m/roll	4vz3125016

HANDLING PRECAUTIONS

For further information, please consult the product safety data sheet.

Safety data sheets are deposited in the Internetshop under www.goessl-pfaff.de with the respective product.

INFORMATION

The information contained in this technical data sheet result from research and tests conducted in our Laboratories under precise conditions. It is the responsibility of the user to determine the suitability of Gößl + Pfaff GmbH products, under their own conditions before commencing with the proposed application. Gößl + Pfaff GmbH guarantee the conformity of their products with their specifications but cannot guarantee the compatibility of a product with any particular application. Gößl + Pfaff GmbH disclaim all responsibility for damage from any incident which results from the use of these products. The responsibility of Gößl + Pfaff GmbH is strictly limited to reimbursement or replacement of products which do not comply with the published specifications.
